

LIQUID GREEN

NEW!

LIQUID GREEN LF

LIQUID GREEN LF is Superior's new economical water-based, concentrated cleaning agent designed to remove liquid polyester resin from laminating tools and equipment in the Composites Fabrication Industry. Used in conjunction with the *Superior Parts Washer*, **Liquid Green LF** offers an *effective* and *environmentally safe* first step cleaning process as an effective alternative to replacing acetone.

LIQUID GREEN LF is characterized by its efficient emulsifying capabilities and low foaming tendencies. The product is biodegradable, contains no heavy metals, no chlorinated solvents or corrosive materials. Therefore, it is user friendly, mild on the skin and should conform to the wastewater discharge requirements of most municipalities.

EFFECTIVE CLEANING CAPABILITY!

EXCELLENT FOAM CONTROL!

ENVIRONMENTALLY SAFE!
