

SUPER BLUE

**SAFE AND
EFFECTIVE**

SUPER BLUE LF RESIN CLEANER

SUPER BLUE LF RESIN CLEANER is Superior's high quality water-based concentrated emulsifier designed to remove uncured liquid polyester resin from laminating tools in fiberglass spray-up applications. It is the primary cleaning agent of *The Superior System For Acetone Replacement* that offers a proven, environmentally safe and effective program for replacing flammable / hazardous acetone!

SUPER BLUE LF has exceptional emulsification and low foaming properties. Used in conjunction with the *Superior Parts Washer*, **Super Blue LF** removes resin very aggressively, yet safely without leaving a residue on the tools. The product is biodegradable and contains no heavy metals, chlorinated solvents or corrosive materials. Therefore, it is very user friendly and environmentally safe!

A NON - HAZARDOUS / NON - FLAMMABLE CLEANER!

EXCEPTIONAL EFFECTIVE CLEANING PROPERTIES!

EXCELLENT LONG-TERM FOAM CONTROL!

ENVIRONMENTALLY SAFE!

USER FRIENDLY!
