

## Product Services

The entrepreneurial spirit is highly regarded at Superior Solvents and Chemicals. As such, Superior is equipped to partner with our customers to facilitate production of new and existing products using our state of the art facilities.

### **Dynamic**

In today's marketplace, brand identification is a major asset. Superior offers the customer the ability to continue the use of that brand while production occurs in one of their state-of-the-art facilities.

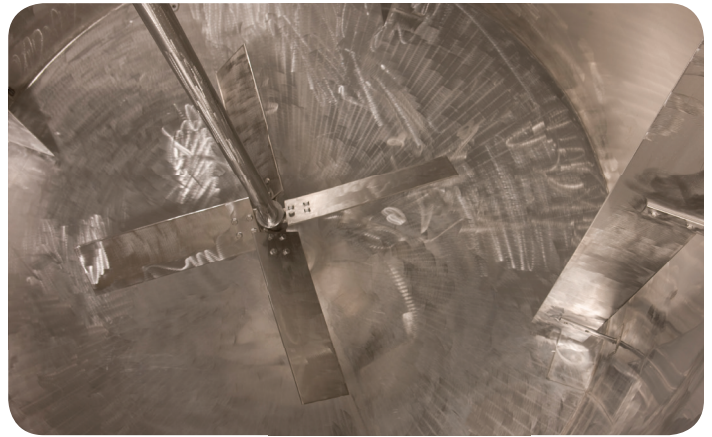

Equipped with various stainless mixing, pumping and packaging equipment, Superior offers the new or existing company the ability to take new or existing products to market without capitalization. Complete customer identity is upheld from packaging, labeling, shipping and delivery.

Once the product is made, the support does not stop. Quality control laboratories will make sure the product created meets specifications set forth by the customer.

Making formulated products isn't the only thing Superior does well. Trans-loading and custom filling are also performed regularly at many of our locations. From flammable materials to pharmaceutical grade components, Superior has the expertise to fill containers from five gallon pails to tankers.
